The **Swiss/Argentinean** label **Darek Recordings** finally presents its **sixth reference**. This time we're introducing a sweet and talented young lady who was remixed by **Mathew Jonson** in 2007. Her name is **Karina** and she delivered two smashing **powerful tracks** and yet **very feminine**, the perfect mixture for the end of this year. Something warm for the cold Winter days. **Karina** loves to say that there's **no life without music**, and that's why she worked **really hard** to present these **new melodies** that explore **House** and **Techno** with a very **personal** and **delicate touch**. This EP is **nicely balanced** and offers many **different styles** and **influences**. Both original tracks are **joyful, punchy**; it's like feeling **many emotions** at the same time.

Jandroide aka **Alejandro Lopez** and our buddy **Mike Wall** are in charge of the remixes and they both made **excellent interpretations** and gave **another vision** of these tracks.

The original of **Farfella** offers floating **hypnotic melodies** and **pumping beats**, the perfect atmosphere for a **sensual warm up**. It's an **explosive mixture** of **sensuality** and reminds you of butterflies flying in all senses with a sense of **freedom** and **happiness**.

Late Night Original as its title indicates is a more **dance floor** orientated track and has some **kick ass sounds** and a really **interesting bass line**. This one **really rocks** without having a typical structure; it's a direct invitation to dance surrounded by **sweaty club walls**.

The other interpretation of **Farfella** delivered by **Jandroide** (Soma) is **more housy** and of **astonishing quality**. It has this sort of **Balearic influence** and gives you a smooth, **positive feeling**. Just picture yourself a nice cocktail in your hand; standing on the shore of the sea, suddenly a fresh breeze of air goes through your hair.... That's how this one feels!

Mike Wall on the other hand remixed **Late Night** and he clearly left his **special touch** on this one. It's a crazy, **strong bomb**. It has a **different base**, totally **out of the ordinary** and is **more Techno** orientated than all the other tracks. You'll love **shaking your hips** to this one.

That's all for now, and don't forget to watch out for our **next killer tracks!**
